'BUY TO LET': THE INVESTMENT OPPORTUNITY

Service apartments are becoming increasingly popular around the world for corporate travel as well as tourism, and the concept is fast catching up in India. They provide the best of both worlds, i.e. amenities and services of a hotel and the comfort of a home.

Aranya Service Suites offer ownership and lease back option under the 'buy to let' model, which allows corporates and individuals to own their service apartment and lease it back to the facilities management company for rental, whenever it is not occupied by the owner. So while you enjoy all the comforts during your stay, your property yields high assured rental returns when you are away.
